Joist Depth	10"	12"	14"	16"	Joist Series	NJ	NJH	
Joist spacing o.c.	12"	16"	19.2"	24"	# Joists affected			
Span (edge of bearing to edge of bearing)								
Live load	40	50	100	Other:				
Dead load	10	15	20	25	30	Other:		
Point loads or additional loading? (if yes, indicate on diagram below)						Yes	No	
<p>Diagram details: Please include the size and location of issue along with any obstructions or variables that hamper repair.</p>								
 <p>The diagram shows a vertical cross-section of an I-joist on the left. To its right is a large rectangular area representing the joist's length. A horizontal shaded band across this area indicates the location and extent of the repair. The shaded area is positioned between the top and bottom flanges of the joist.</p>								
Notes:
